GOAL SETTING WORKSHOP @ BOSCO

On September 4, 2024, Bosco Public School, in association with Riar Pro Learning, organized an insightful workshop on goal setting for grades IX and X, an initiative under the Career Guidance Cell @ Bosco. It was facilitated by Mr. Deepankar Raina, an esteemed Learning and Development Specialist. The event commenced with a warm welcome, marked by the ceremonial sapling presentation to honour Mr. Raina, setting a tone of growth and learning. The presence of the gracious Vice Principal, Ms. Priya Handa, added significance to the occasion, further inspiring students to actively engage in the session.

Mr. Deepankar Raina, with 16 years of rich experience in the field, including 9 years as a leadership coach, brought a unique and informal approach to the workshop. His engaging style, centered around storytelling, instantly connected with the participants, creating an atmosphere conducive to learning. His diverse academic background, which includes postgraduate studies in Advertising and research at IIT Kharagpur on performing arts and human behaviour, allowed him to present concepts in an innovative and relatable manner.

The workshop delved into five key concepts around goals. Mr. Raina began by defining goals, helping students understand the significance of goal setting as a structured process. He then elaborated on the different types of goals, explaining how short-term and long-term goals serve different purposes in one's journey toward success. He further explored recognizing accomplishments and milestones as stepping stones toward larger achievements.

A notable section of the workshop was the discussion of SMART goals (Specific, Measurable, Achievable, Relevant, and Time-bound), a methodology that provides clarity and focus in goal-setting. Mr. Raina ensured that the participants not only understood these concepts theoretically but also through practical examples and interactive exercises.

The session concluded with an enthusiastic Q&A, where Mr. Raina's responses reflected his depth of experience and passion for guiding individuals toward personal and professional growth. His informal and friendly approach and wealth of knowledge left a lasting impression on all attendees.
