#TrainingForParentsOfClassesNurseryAndKG

Event: Phonics-Shala
Date: May 4, 2024 (Saturday)

Parents and teachers work together to lay a strong educational foundation for children. Jolly Phonics, a program using multiple senses, helps young learners develop the necessary English language skills for reading, writing, and speaking fluently. A dedicated workshop on 'Phonics' was held on May 4, 2024 (Saturday) specifically tailored for Grades Nursery and KG parents. Ms. Neha Sadana, the dynamic Primary Incharge, warmly welcomed the parents and emphasised the pivotal role of Phonics in early childhood development. Teachers introduced creative methods to parents for implementing Phonics activities at home. The workshop provided hands-on experiences to parents through interactive activities, games, and exercises. The Phonics-Shala session effectively met its goals, equipping parents with valuable insights into classroom strategies for effective learning journeys.
